## **Reconciliation**

The Truth and Reconciliation Commission of Canada defines Reconciliation as:

*An ongoing process of establishing and maintaining respectful relationships. A critical part of this process involves repairing damaged trust by making apologies, providing individual and collective reparations, and following through with concrete actions that demonstrate real societal change.*

The Federation of Canadian Municipalities (FCM) has defined its perspective on Reconciliation, stating:

*“Despite progress over the past number of years, significant challenges remain in fostering equitable and respectful relationships between municipalities and Indigenous communities. Historical injustices, a lack of genuine consultation, and insufficient recognition of Indigenous sovereignty and rights are key obstacles. Each must be addressed to build effective and sustainable government-to-Nation relationships.”*

**- Federation of Canadian Municipalities (FCM)**

*"The challenge is not simply about integrating Indigenous knowledge and worldviews into Western decision-making frameworks, but about finding ways for the two to coexist without one dominating or subsuming the other. This could be considered more of an interweaving than an integration when it happens."*

John Hibberson submitted a grant to the Growing Communities Fund for the acoustic panels for the Midway Community Centre's main hall. The grant is for \$3,000, and was due March 30, 2026. The Grant Funders are requesting a letter from the Village of Midway approving the following:

"That the Village of Midway permits the Community Association to hire Sound Camel in Vernon to install acoustic sound panels in the Midway Community Centre."

The Community Association has a \$5,000 donation. If the grant is approved, the plan is to install half of the acoustic sound panels.

PETITION FOR THE RESTRICTION OF PERIMETER LAND USE AT

630 FLORENCE STREET, MIDWAY, BC,

(FORMERLY KNOWN AS McMynn's Family Foods)

1. The new owners of *McMynn's Family Foods*, who will operate under the name *Hammy's Kettle Valley Grocery and Liquor Store*, have requested that Midway Village Council permit them to place a permanent 40 foot Seacan container at the back (east side) of the store located at 630 Florence Street, Midway, BC. This will create multiple problems for the home owners and residents in the surrounding neighbourhood. A large Seacan container is not an aesthetically appealing item to look at and will damage the home owners' views that currently exist in the surrounding neighbourhood. This will also have a negative impact on property values for the residential homeowners and taxpayers in the neighbourhood. Instead, we request that the Seacan container be placed parallel to the south side wall of the store building. There is easy access currently available along the south side wall for the installation of a permanent storage container. This would not impact on any existing views for residential property owners in the neighbourhood. In addition, a fence should be placed around the proposed container high enough to block any visibility of the Seacan container. The proposed container should also not include any equipment to provide temperature control for the container as this would generate excessive noise for the residential homes located in the surrounding neighbourhood.
2. The new owners of *McMynn's Family Foods* have also requested that the use of the grocery store parking lot be changed to accommodate overnight RV parking. We completely reject this proposal. Overnight parking for transients in residential neighbourhoods will create multiple ongoing serious problems such as safety concerns, excessive noise, leftover garbage and discarded sewage. These problematic issues will damage homeowners' property values in the surrounding neighbourhood and will also interfere with the homeowners' quiet use and enjoyment of their residential properties. We suggest that the overnight RV parking be moved to the paved area located on the west side of the *Boundary Expo Recreation Centre*. There are no residential properties located in that area and a sewage disposal operation is already located nearby.

VILLAGE OF MIDWAY

3. The new owners of *McMynn's Family Foods* have also requested that a RV be placed on the north side of the grocery store property. We reject this request. The store property is not zoned for the ongoing use of a RV for any residential occupants. This would create a situation where all residents of *the Village of Midway* could request that a RV be parked on their residential property and be rented to any occupant. This as you know would be in violation of *the Village of Midway's Zoning By-Laws*.

**Subject:** FW: MIDWAY Grocery Store Proposals

Hello Lisa,

Thank you for speaking with me on March 20, 2026. I am forwarding to you an email which has been received from Alex Dreher who is the residential property owner of 547 8<sup>th</sup> Ave. in Midway. The email from Alex is self-explanatory and I fully agree with all of the specific concerns raised in his correspondence. There will also be a petition presented to Midway Council for their review this week on behalf of the concerned property owners who reside near the grocery store.

As discussed with you, our family had to endure many years of dust and noise that were constantly being created at the back of McMynn's grocery store. Our parents were originally promised many years ago by the former Mayor Jim McMynn Sr., that grass would be planted and landscaping would be completed at the back of the grocery store. Neither of those promises were ever kept. Cement blocks were ultimately placed on the ground at the back of the store to block delivery trucks from using the immediate back area of the store and to instead direct the trucks to the delivery bay loading ramp on the north side of the store. Those cement blocks were ultimately placed only after the dispute had escalated to the point where litigation was being initiated against McMynn's Grocery Store and the Village of Midway. Now it appears the new owners of McMynn's Family Foods wish to create even more noise and disruption for residents of the immediate neighborhood. All property owners and taxpayers in Midway have a right to the quiet use and enjoyment of their homes. The current Mayor and Village Council are well aware they have a positive duty to protect residential property owners from all forms of unreasonable nuisance and resulting devaluation of residential properties.

You are welcome to contact me on my cell at \_\_\_\_\_ if you have any questions. We would appreciate a timely response from Village Council and we are aware that the next meeting of Council is set for April 7, 2026.

3-22-2026

To the Midway Village Council and whom it may concern.

As a residential property owner of 547 8th Ave in Midway BC, I'm appalled to learn of the 3 grocery store proposals within the residential area in the center of Midway Village.

A 40 foot shipping container placed directly in front of our living room, bedroom, garage and front yard views??? Aren't the dumpsters already enough?? The dumpsters should be housed within built concealed barriers out of respect for the neighborhood. Adding a shipping container is a MAJOR eyesore and guaranteed to reduce property values to our and other surrounding properties!! This appalling approval is basically turning our front yard into the looks of a dump!!! How did this get approved by council??!?

Second is the proposal for an RV to be placed on site with occupants living within?? I didn't think this was allowed. Now we get to have an RV running a generator all day and night within ear shot of our bedroom window?? This is not ok! Again, this is a residential neighborhood with many residents surrounding the grocery store.

Third is the most absurd proposal. An overnight RV parking area in the front of the grocery store?!! In the center of town?! This to me seems like an opportunity for the new business owners to take advantage of the business they're buying and pushing the boundaries of what is allowed within the residential area. This proposal not only is distasteful and disrespectful for the surrounding residents of Midway, but it also invites all kinds of transients into the center of the village at all hours of the night with potential of crime and random all hours activities within the small town of Midway. Why is the center of town within a residential zone even being considered? RV parks should be away from residential communities. Midway does not need a trailer park in the middle of town. Take that elsewhere such as down by the ice rink where there are no residents.

As a licensed realtor I will definitely say that all of these proposals will absolutely reduce real estate property values within our area. Any potential owner does not want to see all these eyesores being proposed. Any potential buyer will not want to buy and see any of those eyesores. The Midway Village council has a fiduciary duty to protect the taxpayers and residents of Midway. Failure to do so can result in legislation brought forth by residents affected by situations as these. I would hope that it does not have to result in that manner.

Council, tell me, would you like to look at a shipping container and an RV park full of transients out in the open in a concrete parking lot in the center of the village??! I would think not. Take it elsewhere.
